A Flower on the Dead Tree! -

*A man who becomes shadow*

At an art exhibition, a shadow of sculpture drives a man, who was badly hurt by social violence and lost a meaning in his life, to start a journey into his memories. In his memory, he finds a woman who once gave him unconditional love. That memory gives him a courage to face all the difficulties he has now in reality.

Through shadow images created by pieces of sculptures, flashlights and big screens, 'From the shadow' tells a story how one's devastated heart can be cured by love. You will witness beautiful, sometimes grotesque, reflections of material pieces, and through those you can feel the human's inner world flows out magically.
